Third Party Compliance

Join us on November 24, 2016 in central Paris as chapter member Laurence Houibert, Third Party Program Leader for Pentair takes us through a 1 hour CPE event on Third Party Compliance. In a world where we are increasingly confronted with cybercrime, supplier fraud and new regulations and laws, we need to continually improve our processes and controls in our dealings with suppliers and customers. Laurence will share her challenges and best practices in Third Party Compliance. We will then have a round table discussion and Q&A with the attendees.

Management Accounting Competency Framework

Management accountants partner in planning and decision making, create performance management systems, and provide expertise in financial reporting and control. [The IMA Management Accounting Competency Framework](#) is offered as guidance for career development and talent management within the profession.

IMA developed the Framework in tandem with the 30th anniversary of the Bedford Report, a landmark study from the American Accounting Association (AAA) on the gap between what accountants do and what educators teach. With our commitment to research and innovation, IMA is leading the effort to bridge the skills gap.
